Windstream Testimonial

We have been with Windstream (formerly Nuvox) for over 5 years, and we have been more than pleased with their service. From their local account managers to their technical support, they have always gone out of their way to make sure that they provided a solution that was not only cost-effective, but was the right solution for us. We would recommend Windstream to any business looking to have best-of-breed services along with fantastic customer support!
