

Windstream's customer service is exceptional!

MARKET[SOURCE] has been a loyal customer since 2007. Doug Small, our local rep, and Nick Thornton have exceeded our expectations and met our specific needs.

We are a full-service market research company with an outbound call center. Windstream allows us to use our in-house account codes, which makes balancing our 100+ page itemized invoice each month less timely than before. We also conduct online research, which Windstream has set up to run through our website. (Our phones and Internet service are a vital component of our daily operations - without them, we would be unable to remain productive and profitable.)

MARKET[SOURCE] is somewhat unique in the way we use Windstream's services and they have accommodated us well. We trust Windstream to keep us moving forward.
