To whom it may concern:

Windstream Communications

I confirm that we have dealt with Windstream Communications for many years, during which time they have provided our business with excellent support that has included their monitoring of our account for possible price reductions (and implementing these price reductions), advising of new services that are available to us, and assisting in setting up our land-line system when we moved to a new location. We have never experienced a service interruption with our telephone system while having Windstream Communications as our service provider.

I can confidently recommend Windstream Communications as a solid and reliable telephone provider, and experts in their field.

Sincerely,

Kelly A. Magruder

Accounting

Mor Sound, Inc. sounds great!
